## ANTHONY MC CALL: CROSSING THE ELBE

HD | Dolby Stereo | 16:9 | colour | 19' | 2015

The film ANTHONY MCCALL: CROSSING THE ELBE is the form-conscious study of a city as well as of a site specific artwork by Anthony McCall. In it's own way the film enables to re-experience this city again and again. On the other hand the film is a documentation of the artwork; of its conditions and its becoming.
